Vector O2 cushion

The Vicair Vector O2 cushion is an adjustable skin protection and positioning cushion that provides greater trochanter support for lateral stability and redistributes pressure to help create an ischial well. It consists of nine compartments; the front compartments provide leg alignment and stability and can be adjusted for individual positioning needs.

Weight capacity: 550 lb/250 kg

Adjuster O2 cushion

This Vicair Adjuster O2 is an adjustable skin protection cushion that provides support for the IT/coccyx area, redistributes pressure over a larger surface area and may be adjusted to assist in managing pelvic asymmetry. It consists of five compartments; the front compartments offer femoral support and the pre-ischial shelf minimizes sliding forward.

Weight capacity: 550 lb/250 kg

Active O2 cushion

The Vicair Active O2 offers the unique combination of ergonomically shaped foam and Vicair SmartCells®. The four rear compartments provide a high level of comfort, skin protection and reduce pressure in the IT/coccyx area. The foam front assists in making transfers easier and is protected by an easy to clean fluid-resistant liner.
