

Power assist device

SmartDrive MX2+

permobil

Easily removable,
making it great for
transportation

Multiple ergonomic handles to
quickly attach to almost any
manual wheelchair

Lightweight
power assist
weighing in at
13.2 lbs

OmniWheel engages and
stays engaged in any position,
maintains optimal traction, and
climbs up to 10 degree slope
(17% inclines)

On-demand power assist

Pushing a manual wheelchair can put stress on your shoulders and lead to serious future issues. SmartDrive's seamless power assist has been proven to reduce up to 81%* of your pushes and minimize repetitive stress, allowing you to focus on the things that matter.

*based on data collected from SmartDrive's SmartEvaluation App

SwitchControl

SwitchControl is a simple way to control your SmartDrive with the push of a button. You can use SwitchControl in momentary or latched mode and, optionally, attach an external switch with a custom mono jack option.

Momentary

Your SmartDrive will engage for as long as you hold either Switch.

Latched

Press and hold either Switch to set your cruise speed. When you want to stop, simply tap the Switch and hold on to your wheels.

SwitchControl with Mono Jack Option

Use any external mono jack switch to operate your SwitchControl; no programming required.

Buddy Button with
extended mount and
SwitchControl with
mono jack

Power your push, Your way

Discover how our variety of hardware and software solutions can be combined to better support your individualized mobility goals.

Specifications
