Updated inflation valves are made out of Zytel.

Permobil Seating & Positioning is continually making improvements to our products to help with the overall quality. One of our more recent updates has been to the ROHO® product inflation valve. The updated inflation valve is made out of Zytel® instead of metal, with improved features. Since ROHO products include different types of inflation valves, we use a color identifier on the valve caps (see below).

The valve design has been improved:

Black cap - Non-Sensor Ready standard valve cushions

Blue cap - Hybrid Elite Sensor Ready cushion & Hybrid Select cushion

Grey cap - All other Sensor Ready cushions & AGILITY insert pads

- Easier to open, close and attach a pump for inflation
- Less risk of failure
- Confidently feel it close
- The Zytel valves are made in the U.S.

NOTE: Product photos have been updated throughout this price list, however a few showing the metal valves are still used to highlight other product features (cushion height comparison, lifestyle images taken prior to the update, etc).

AGILITY Back Systems

AGILITY is offered in an Active Series and Standard Series. All backs include: mounting hardware, cover, and user manual.

Active Series
AGILITY Active Aluminum

Active Series
AGILITY Carbon
Note: Carbon weave pattern was updated in 2021

The three backs have different contours: Min = 3” depth, Mid = 4” depth

Min
Code: AG2

Mid
Code: AG3

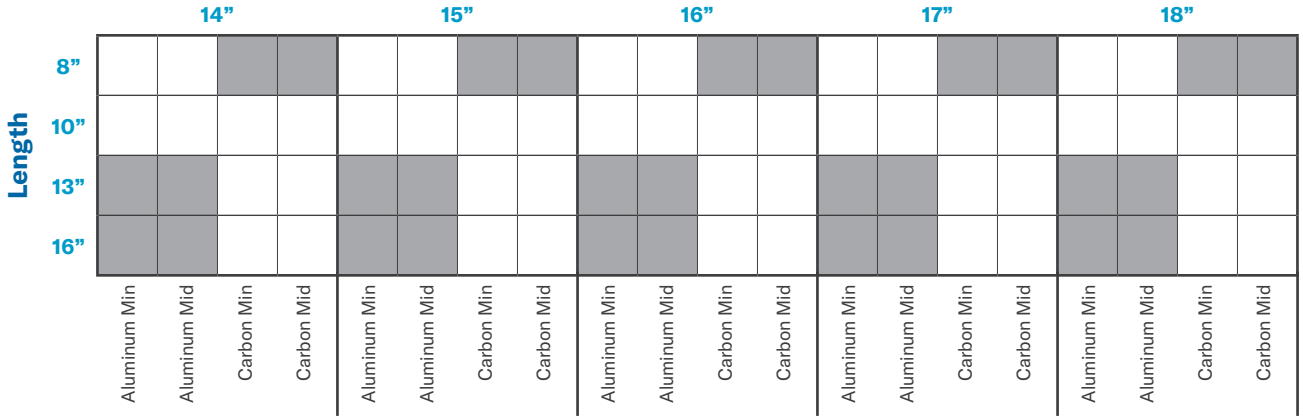

For exact dimensions of the AGILITY Contour Backs, please see the sizing matrix on our website.

Please note, the measurements are given for information only. ROHO strongly recommends that clinicians perform a thorough evaluation of the client and equipment to ensure optimal fit of the AGILITY back.

AGILITY Active Series is available with an aluminum or carbon shell, and in both Min and Mid contours.

AGILITY Active Aluminum comes standard with Fixed Adjustable Hardware.
Shaded boxes are sizes that are unavailable.
Please use (-2A) in the part number.

AGILITY Active Aluminum Back with Foam

Recommended for people using wheelchairs who need basic postural support and minimal or medium trunk support.

Seat Cushions

Please refer to the Size Table on page 31 to help you choose the right cushion size.

The ISOFLO® Memory Control opening has been eliminated from ROHO® Universal Covers that come with HIGH PROFILE®, LOW PROFILE®, MID PROFILE™, MINI-MAX® and ENHANCER® Cushions.

Universal Covers ordered separately come standard with the ISOFLO® Memory Control opening unless otherwise indicated. Please consult page 25 of this price list for all ROHO® cover options.

ROHO® Hybrid Select Cushions with Cover

Advanced hybrid seating with superior positioning. The ROHO aircells and removable IT insert for offloading utilize the ISOFLO® Memory Control. The contoured foam base has deep leg troughs and a coccyx relief cutout.

ROHO has created an all-in-one seating solution that brings foam and air technology together with optional offloading.

Above photo shows cushion with a see-through cover.

Below photos show the Hybrid Select without the cover and with lines indicating the air flow and contours; and another with the IT air insert removed.

Sensor Ready Single Valve ROHO® HYBRID ELITE® Cushions with Cover

Combines the unique properties of ROHO air cells with the supportive features of foam. Contoured foam channels provide positioning and stability. Inflate the air cell insert, and with use of the available Smart Check device, check the inflation level with the simple push of a button. Note: Table on the right is for heavy duty (HD) incontinent covers. The single valve cushion comes Sensor Ready (SR) and can be added at any time. Pressure monitor is sold separately (see below).

Replacement cell pads (specify cushion size and number of valves)..... **$520.00**

Foam only Small for cushions 1414 to 2020 (specify cushion size) **$212.00**

Foam only Large for cushions 2218 to 2420 (specify cushion size) **$276.00**

Now available with “Smart Check” pressure monitor. For single valve only. SMART-CHECK-01..... **$298.00**

Size Table for ROHO® Cushions

To select the correct cushion for your wheelchair:

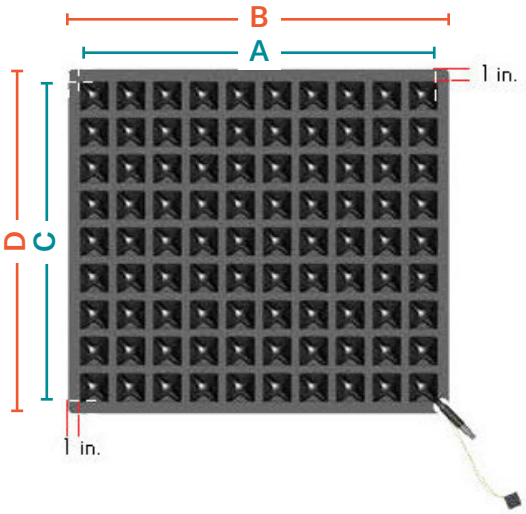

STEP 1 - Measure the wheelchair seat width and depth. Note: Wheelchair manufacturers' published seat dimensions may vary.

STEP 2 - Use your wheelchair seat dimensions and the table below to help you determine the number of cells in cushion width and in depth.

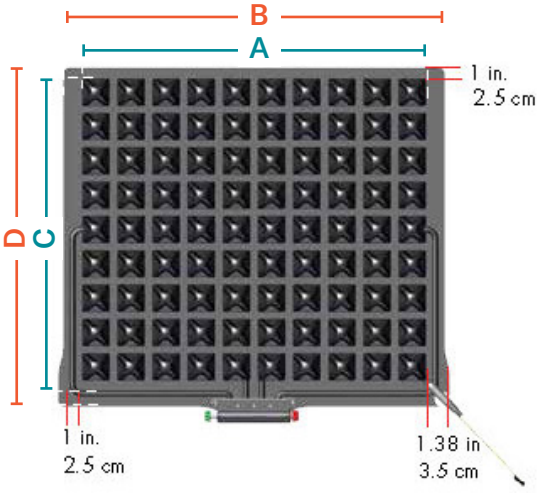

STEP 3 - Select cushion height: LOW PROFILE (2.25"/5.5 cm), MID PROFILE (3.25"/8.5 cm), HIGH PROFILE (4.25"/10.5 cm), ENHANCER or CONTOUR SELECT (various cell heights).

Standard DRY FLOATATION® Single (1R) or Dual (2R) Valve and ENHANCER® (ENH)				
# of Cells	A & C cushion cell to cell	B & D cushion base	Measured chair range (narrowest to widest)	
5	8.25" / 21 cm	10" / 25 cm	8.25" / 21 cm	10" / 25.5 cm
6	10" / 25.5 cm	11.75" / 29 cm	10" / 25.5 cm	11.75" / 29.5 cm
7	11.75" / 29.5 cm	13.25" / 33.5 cm	11.75" / 29.5 cm	13.25" / 34 cm
8	13.25" / 34 cm	15" / 37.5 cm	13.25" / 34 cm	15" / 38 cm
9	15" / 38 cm	16.75" / 42 cm	15" / 38 cm	16.75" / 42.5 cm
10	16.75" / 42.5 cm	18.5" / 46.5 cm	16.75" / 42.5 cm	18.5" / 47 cm
11	18.5" / 47 cm	20.25" / 50.5 cm	18.5" / 47 cm	20.25" / 51 cm
12	20.25" / 51 cm	21.75" / 55 cm	20.25" / 51 cm	21.75" / 55.5 cm
13	21.75" / 55.5 cm	23.5" / 59.5 cm	21.75" / 55.5 cm	23.5" / 60 cm
14	23.5" / 60 cm	25.25" / 63.5 cm	23.5" / 60 cm	25.25" / 64 cm
15	25.25" / 64 cm	27" / 68 cm	25.25" / 64 cm	27" / 68 cm

SELECT® Series QUADTRO SELECT (QS) and CONTOUR SELECT (CS)				
# of Cells	A & C cushion cell to cell	B & D cushion base	Measured chair range (narrowest to widest)	
5	8.25" / 21 cm	11" / 28 cm	8.25" / 21 cm	10" / 25.5 cm
6	10" / 25.5 cm	12.75" / 32.5 cm	10" / 25.5 cm	11.75" / 29.5 cm
7	11.75" / 29.5 cm	14.5" / 36.5 cm	11.75" / 29.5 cm	13.25" / 34 cm
8	13.25" / 34 cm	16" / 41 cm	13.25" / 34 cm	15" / 38 cm
9	15" / 38 cm	17.75" / 45 cm	15" / 38 cm	16.75" / 42.5 cm
10	16.75" / 42.5 cm	19.5" / 49.5 cm	16.75" / 42.5 cm	18.5" / 47 cm
11	18.5" / 47 cm	21.25" / 54 cm	18.5" / 47 cm	20.25" / 51 cm
12	20.25" / 51 cm	23" / 58 cm	20.25" / 51 cm	21.75" / 55.5 cm
13	21.75" / 55.5 cm	24.5" / 62.5 cm	21.75" / 55.5 cm	23.5" / 60 cm
14	23.5" / 60 cm	26.25" / 67 cm	23.5" / 60 cm	25.25" / 64 cm

Note: Cell to cell and edge to edge dimensions are rounded to the nearest .5 cm. Please check price list to confirm that a size is available. Sizes vary per model.

Sizing Exceptions - The above sizes are compatible with all ROHO seat cushions except AirLITE® cushions. The number of cells is compatible with the model numbers listed next to each product. The wheelchair seat format should be used to determine the proper number of cells required to suit your seat. For the AirLITE® cushions, the model number indicates the dimensions of the wheelchair seat in inches, width X length.

Dimensions for ROHO® Products

Read the measurements in this guide and in the product documentation at www.permobil.com.

Cushion Height – The height of the cushion without load and without possible edging or seat shell. The point of departure is a normally inflated cushion. These measurements may also be found in the product descriptions and on product labels.

Cushion Width – Cushion width measured from edge to edge without load. These measurements may also be found in the product descriptions and on product labels.

Cushion Depth – Cushion depth measured from edge to edge without load. These measurements may also be found in the product descriptions and on product labels.

Seat Width – The appropriate seat width for using the cushion. See also “appropriate width” in the list of prices.

Seat Depth – The appropriate seat width for using the cushion. See also “appropriate depth” in the list of prices.

Effective height of DRY FLOATATION® / AIR FLOATATION™ – Spacing between the lower portion of the body and the top of the seat cushion or mattress. The effective height of DRY FLOATATION® (height for AIR FLOATATION products with AIR FLOATATION™ technology) makes assumptions regarding the depth to which the body sinks into the cushion. The deeper, the greater the contact surface and the lower the pressure per cm^2 of skin.

Notes

NOTE 1: Ventilation/drainage openings through base of cushion available. See Custom Price.

NOTE 2: All cushion prices include a cover, inflation pump, repair kit, and operating instructions, except where noted by a *.

NOTE 3: All measurements for cushions are approximate from edge to edge.

NOTE 4: Custom pricing is for cushions up to 160 cells. Cushions over 160 cells require a quote.

NOTE 5: Custom items are non-refundable and non-exchangeable.

Terms and Policies

1. Return Policy: All returns require prior authorization and are subject to a restocking fee.
2. All custom items are non-refundable and non-exchangeable.
3. All cushion and mattress prices include cushion or mattress, inflation pump, rubber patch repair kit, and operating instructions. Cushion prices also include cover unless noted by *.

Permobil reserves the right to make changes to prices and specifications without notice.

#

Compartment Divisions

If more than one air compartment is desired, please follow these steps, using the features in your Adobe Acrobat software:

1. Click the "Tools" tab
2. Click open underneath the "Comment" Tool
3. Click the shape icon that appears in the toolbar and select the line tool
4. Use the line tool to mark your desired compartments
5. Repeat step 4 for any additional compartments
6. Click the 'X' next to the toolbar to close the comment tool and continue filling out the rest of the form.

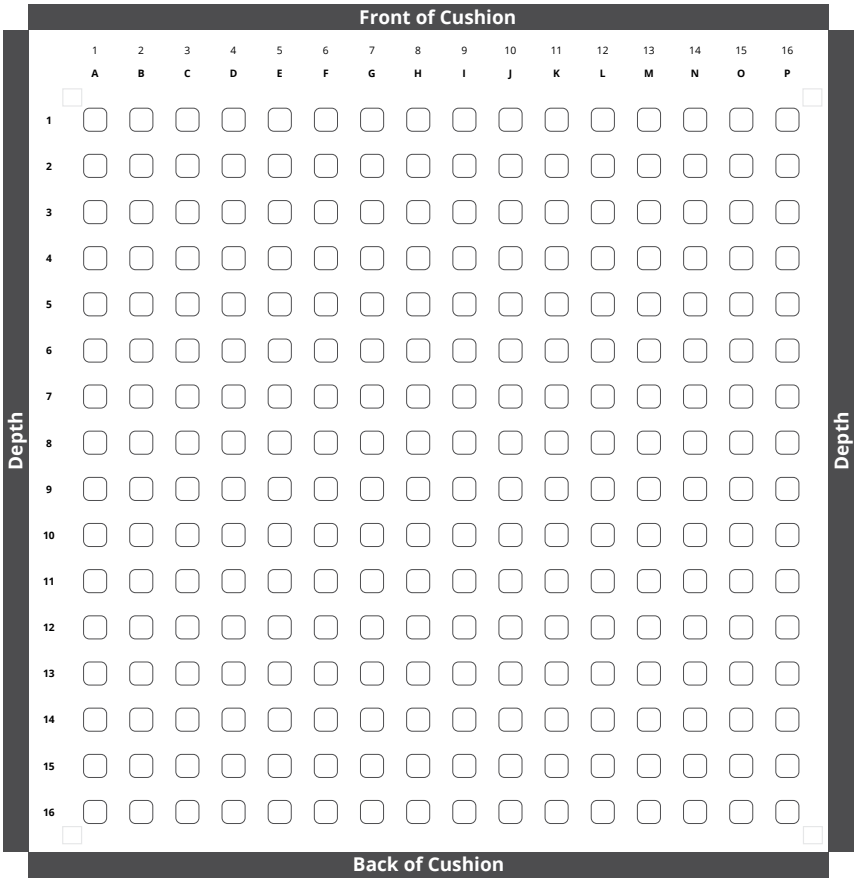

Valve and Valve Hose

Type "V" in one or more of the corner boxes to indicate desired valve location. Please ensure the number of compartments matches the number of valves marked to the right or below. If more than one valve is desired in one specific corner, type "V V" in the corner box.

(Note: For any valves required outside the corner boxes, please include the location in the special instruction box)

Hook and Loop Fastener

If a hook or loop fastener is desired, please indicate the location in the checklist below.

Special Instructions:

Example DESIGN-A-ROHO:
This chart shows a 2R66 with 3in/7.6cm cells. The cushion has deleted cells in the back leaving the rubber base. The compartments are divided between rows 3 (C) and 4 (D), and the additional valve is placed in the front right corner.

DO NOT SEND PATIENT PROTECTED HEALTH INFORMATION! IT IS NOT NEEDED TO MAKE THE PRODUCT YOU ARE REQUESTING.
Please be advised that custom items take approximately 3-4 weeks from date of order to manufacture.
Disclaimer: The final decision to manufacture custom product is at the discretion of Permobil Seating & Positioning.

How to use the DESIGN-A-ROHO® Product Worksheet

Specific clients may want a ROHO cushion designed for their unique needs. This worksheet is intended for that purpose.

The grid on the front of this worksheet represents a 16 cell width by a 16 cell length cushion, but cushions needing larger dimensions may also be available. Contact ROHO Customer Experience for information on limitations that may exist.

Follow these steps when ordering a ROHO® custom product:

Step 1: Determine whether you need a seat cushion or a back.

Step 2: Determine the overall size of the cushion or back required (width by length) e.g. 15in/38cm by 15in/38cm.

Step 3: The rounded squares represent individual cells. Specify the height of each cell by inserting the desired height. Select the numbers **1**, **2**, **3**, or **4** which represents 1in/2.5cm, 2.25in/5.5cm, 3.25in/8.5cm, 4.25in/10.5cm respectively. If you need certain cells deleted, indicate by placing the letter "**X**" in the square. When cells are deleted, all that remains is the rubber base. If you want this area removed, please indicate by placing the symbol "**#**" in the square on worksheet. Please note that ROHO will not make a cushion which is only one row of cells on the outer edge of the cushion or one cell standing alone. ROHO suggests that cell variances of 2 or more inches be placed on separate valves for better immersion.

Step 4: Specify the number of valves. If you would like the valve location somewhere other than in the corners, please specify the location(s) in the special instructions box.

Step 5: If you have specified more than one valve, indicate compartment divisions by using the line tool to mark the different compartment divisions.

Step 6: If you would like hook and loop fastener strips attached to the base of the cushion and/or cover, specify the type and the location on the front of this worksheet. Strips near the edge of the cushion can be both glued and sewn, but strips located toward the center of the cushion can only be glued.

Step 7: Select if a cover is required

ROHO® Neoprene Cushion Sizing Chart

Fits Wheelchair Size (in. / cm)	Number of Cells
10 / 22 to 26.5	5
