

MyPermobil

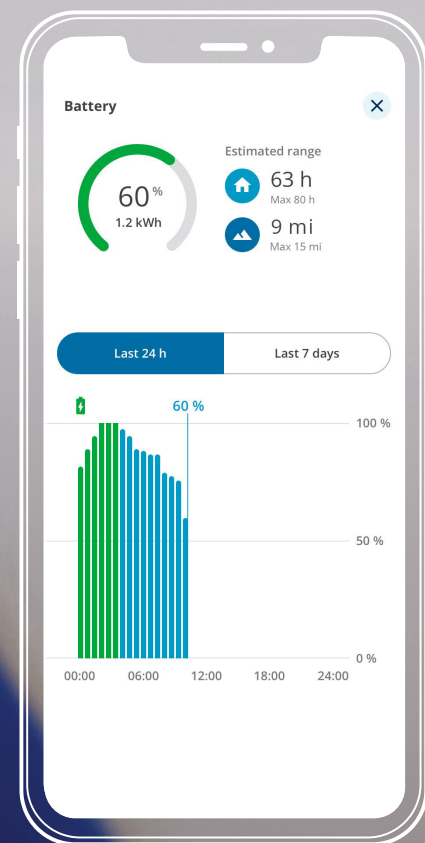

Real-time power
wheelchair insights

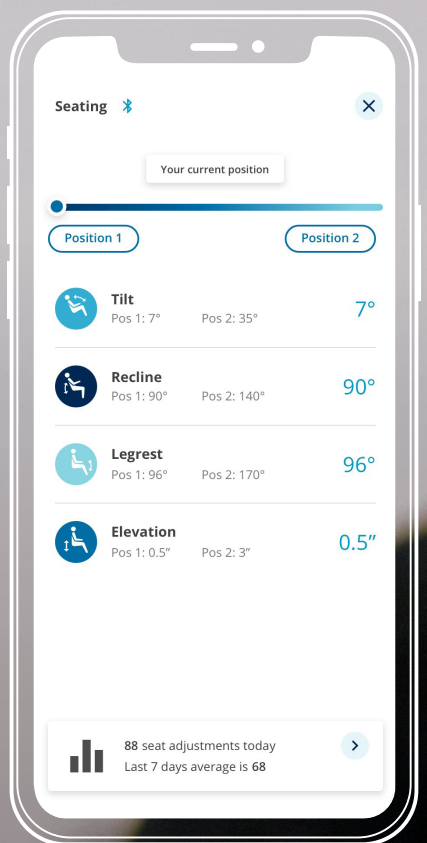

permobil

MyPermobil app

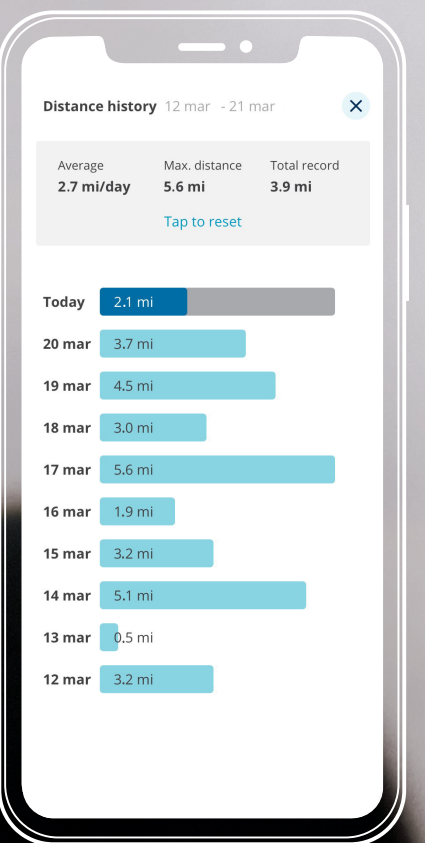

MyPermobil helps you get more out of your power wheelchair by sending relevant status updates directly to your smartphone in real time.

Battery status and travel range estimates help you know how far you can go

Take the pressure off with meaningful insights into your power seat function usage

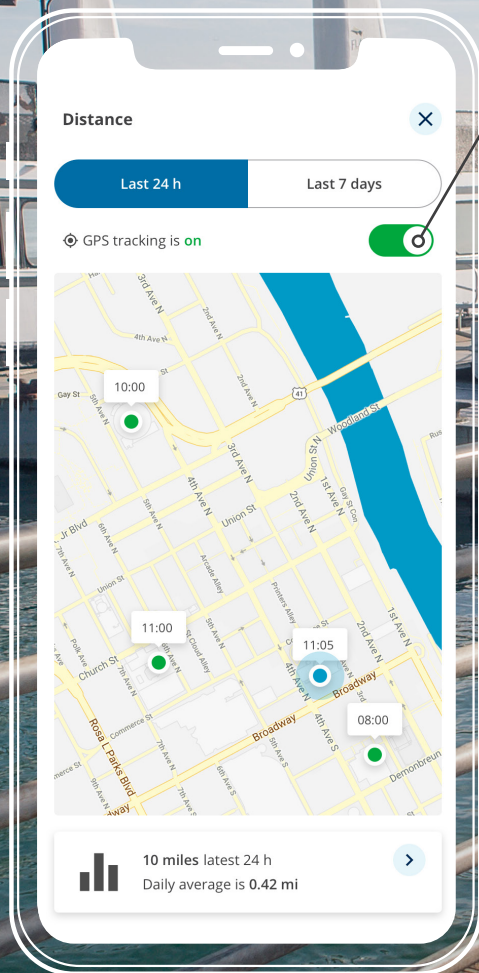

See how far you've come by reviewing your travel history

App dashboard makes key information available at a glance

Knowledge is power

MyPermobil features in-app educational resources, battery charge status, automatic error code reporting and seat activity usage data to help improve communication with healthcare and service providers.

Easy to enable or
disable GPS tracking

Integrated map illustrates daily and historic
travel behavior

Travel with confidence

From where you've been to where you want to go, the MyPermobil app helps guide your power wheelchair journey. Combining in-app estimated battery range travel distances with the integrated map empowers you to go further with confidence.

MyPermobil connectivity comes standard on all new M & F-Series Corpus & Corpus VS models. Download the app to get started today.
