Learning opportunities

In Canada, where CEU credits are not always required, the content of courses for credit remains as outlined though customization of topic and content is possible.

Permobil education and trainings are offered in a variety of ways including in-person, virtual and on-demand.

Clinical and funding resources

The Permobil Clinical team is your partner in education, available to guide you in many ways beyond programs typically available. We're both dedicated to the advancement of the industry and the best possible outcomes for clients. Let us support you in your everyday practice — our team is your team.

Find your Permobil Clinical Education Manager here: <https://edu.permobil.com/en-ca/> or email education@permobil.com

Documentation and funding support

LMN generator

We know that documentation is a large part of the process for the seating and mobility equipment provision process. In addition to the education resources listed here, we have an LMN (letter of medical necessity) generator that can provide you with sample language to assist with your documentation efforts.

Access LMN generator here: permobilmn.com

Manual wheelchairs

If you or your equipment provider is using **EZ-Ti** to configure a TiLite manual wheelchair, a sample LMN template will populate while they are building the chair. This also includes options for justifications for SmartDrive power assist. Please note these are just guidelines and samples and will need to be customized for your documentation methods and for each individual client. The use of these sample letters do not guarantee funding or reimbursement. They are to be used as a guide only.

Check out EZ-Ti here: orderforms.tilite.com

For funding questions or assistance email ca_funding@permobil.com

Additional clinical resources

Please visit edu.permobil.com to access our many clinical resources including:

Wheelchair Seating & Positioning Guide; Manual Wheelchair Guide; Power Wheelchair Guide; The Wheelchair Handbook: A consumer's guide to seating and mobility equipment; the Permobil/NPIAP Wheelchair Seating Pocket Guide; and more!

The QR code will take you to our website with detailed course listings and descriptions.

**All course completion requirements must be met to receive credits. Please remember that state requirements are constantly changing. It is ultimately the licensed medical professional's responsibility to determine if the CEUs are approved for their state/profession.*

The courses listed are appropriate for PT, PTA, OT, COTA, ATP, technicians.
