

Comfort

Unite back supports

Combining two trusted names for one back solution.

Tailor your fit with adjustable components

Find the optimal back support for maximum positioning and stability

Each individual is unique in their needs.
That's why we have a Solution for every Body.

Innovative technologies available

- **Moldable stays:** personalized support that contours to you
- **ROHO® inserts:** adapt to the body's shape for pressure redistribution and immersion
- **GlideWear™ technology:** reduce shear forces and provide breathability for microclimate control
