Updated inflation valves now made out of Zytel.

Permobil Seating & Positioning is continually making improvements to our products to help with the overall quality. One of our more recent updates has been to the ROHO® product inflation valve. The updated inflation valve is now made out of Zytel® instead of metal, with improved features like smoother turning and not locking in place.

Since ROHO products include different types of inflation valves, we are now including a color identifier on the valve caps (see below).

Black cap - Non-Sensor
Ready standard valve
cushions

Blue cap - Hybrid Elite
Sensor Ready cushion &
Hybrid Select cushion

Grey cap - All other Sensor
Ready cushions & AGILITY
insert pads

The valve design has been improved to be of a higher quality with added functionality. Technology has been integrated into the design features of the valve that couldn't be done with metal:

- A smoother open and close function. Threads in the Zytel valve are smoother than the metal valve.
- The valve is designed in a way that keeps it from locking in the open position. Keep in mind, the Zytel valve will spin freely in the open position. This is a benefit as it keeps the valve from locking in place.
- The Zytel valves are made in the U.S.

NOTE: Product photos have been updated throughout this product list, however a few showing the metal valves are still used to highlight other product features (cushion height comparison, lifestyle images taken prior to the update, etc).

AGILITY Back Systems

AGILITY is offered in an Active Series and Standard Series. All backs include: mounting hardware, foam with air cell cavity, cover, and user manual.

Active Series
AGILITY Active Aluminum

Active Series
AGILITY Carbon
*Note: Carbon weave pattern was
updated in 2021*

OR

Standard Series (Max only)
AGILITY Standard Aluminum

The three backs have different contours: Min = 3" depth, Mid = 4" depth, Max = 7" depth

Min
Code: AG2

Mid
Code: AG3

Max
Code: AG6

For exact dimensions of the AGILITY Contour Backs, please see the sizing matrix on our website.

Warning: The measurements are given for information only. ROHO strongly recommends that clinicians perform a thorough evaluation of the client and equipment to ensure optimal fit of the AGILITY back.

AGILITY Active Series is available with an aluminum or carbon shell, and in both Min and Mid contours.

AGILITY Active Aluminum comes standard with **Fixed Adjustable Hardware**.

Please use (-2A) in the part number.

Seat Cushions

Please refer to the “Size Table” on page 31 to help you choose the right cushion size.

The ISOFLO® Memory Control opening has been eliminated from ROHO® Universal Covers that come with HIGH PROFILE®, LOW PROFILE®, MID PROFILE™, MINI-MAX® and ENHANCER® Cushions.

Universal Covers ordered separately come standard with the ISOFLO® Memory Control opening unless otherwise indicated. Please consult page 25 of this product list for all ROHO® cover options.

ROHO® Hybrid Select Cushions with Cover

Advanced hybrid seating with superior positioning. The ROHO overlay and removable IT insert for offloading utilizes ISOFLO® Memory Control. The contoured foam base has deep leg troughs and a coccyx relief cutout.

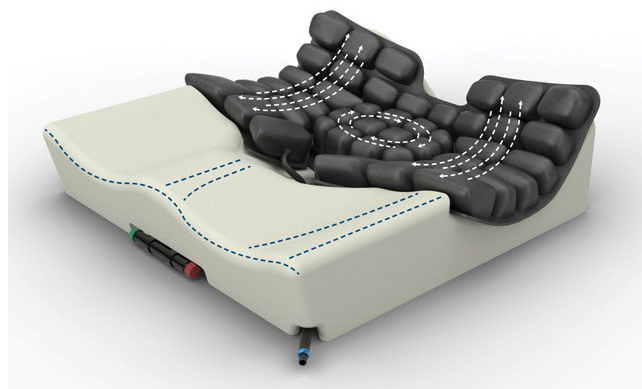

ROHO has created an all-in-one seating solution that brings foam and air technology together with optional offloading.

Above photo shows cushion with a see-through cover.

Below photos show the Hybrid Select without the cover and with lines indicating the air flow and contours; and another with the IT air insert removed.

Sensor Ready Single Valve ROHO® HYBRID ELITE® Cushions with Cover

Combines the skin protection and shape matching ability of ROHO® DRY FLOATATION® with the stability of Jay® base technology. This new cushion design allows for improved pelvic alignment and stability for improved position and function, while maintaining optimal immersion and envelopment of both ischial tuberosities and greater trochanters. **Note:** Table on the right is for heavy duty (HD) incontinent covers. The single valve cushion comes Sensor Ready (SR) and can be added at any time. Pressure monitor is sold separately (see below).

Replacement cell pads (specify cushion size and number of valves)

Foam only Small for cushions 1414 to 2020 (specify cushion size)

Foam only Large for cushions 2218 to 2420 (specify cushion size)

Now available with "Smart Check" pressure monitor. For single valve only. SMART-CHECK-01

Size Table for ROHO® Cushions

To select the correct cushion for your wheelchair:

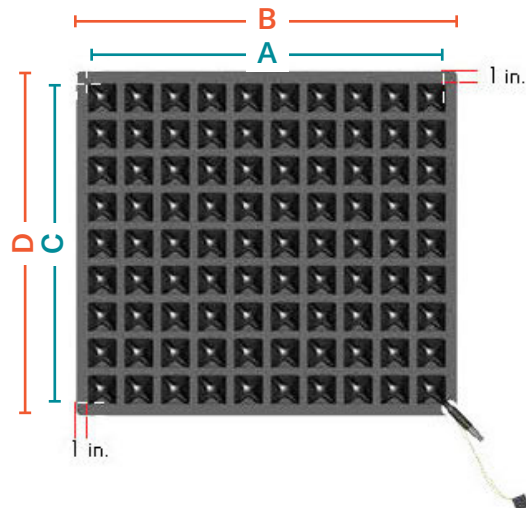

STEP 1 - Measure the wheelchair seat width and depth. Note: Wheelchair manufacturers' published seat dimensions may vary.

STEP 2 - Use your wheelchair seat dimensions and the table below to help you determine the number of cells in cushion width and in depth.

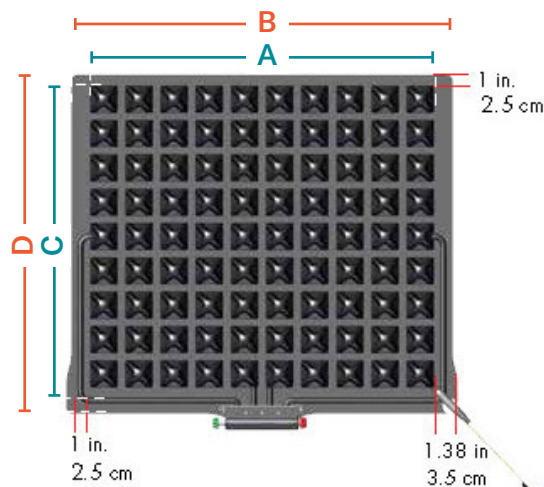

STEP 3 - Select cushion height: LOW PROFILE (2.25"/5.5 cm), MID PROFILE (3.25"/8.5 cm), HIGH PROFILE (4.25"/10.5 cm), ENHANCER or CONTOUR SELECT (various cell heights).

Standard DRY FLOATATION® Single (1R) or Dual (2R) Valve and ENHANCER® (ENH)				
# of Cells	A & C cushion cell to cell	B & D cushion base	Measured chair range (narrowest to widest)	
5	8.25" / 21 cm	10" / 25 cm	8.25" / 21 cm	10" / 25.5 cm
6	10" / 25.5 cm	11.75" / 29 cm	10" / 25.5 cm	11.75" / 29.5 cm
7	11.75" / 29.5 cm	13.25" / 33.5 cm	11.75" / 29.5 cm	13.25" / 34 cm
8	13.25" / 34 cm	15" / 37.5 cm	13.25" / 34 cm	15" / 38 cm
9	15" / 38 cm	16.75" / 42 cm	15" / 38 cm	16.75" / 42.5 cm
10	16.75" / 42.5 cm	18.5" / 46.5 cm	16.75" / 42.5 cm	18.5" / 47 cm
11	18.5" / 47 cm	20.25" / 50.5 cm	18.5" / 47 cm	20.25" / 51 cm
12	20.25" / 51 cm	21.75" / 55 cm	20.25" / 51 cm	21.75" / 55.5 cm
13	21.75" / 55.5 cm	23.5" / 59.5 cm	21.75" / 55.5 cm	23.5" / 60 cm
14	23.5" / 60 cm	25.25" / 63.5 cm	23.5" / 60 cm	25.25" / 64 cm
15	25.25" / 64 cm	27" / 68 cm	25.25" / 64 cm	27" / 68 cm

SELECT® Series QUADTRO SELECT (QS) and CONTOUR SELECT (CS)			
# of Cells	A & C cushion cell to cell	B & D cushion base	Measured chair range (narrowest to widest)
5	8.25" / 21 cm	11" / 28 cm	8.25" / 21 cm 10" / 25.5 cm
6	10" / 25.5 cm	12.75" / 32.5 cm	10" / 25.5 cm 11.75" / 29.5 cm
7	11.75" / 29.5 cm	14.5" / 36.5 cm	11.75" / 29.5 cm 13.25" / 34 cm
8	13.25" / 34 cm	16" / 41 cm	13.25" / 34 cm 15" / 38 cm
9	15" / 38 cm	17.75" / 45 cm	15" / 38 cm 16.75" / 42.5 cm
10	16.75" / 42.5 cm	19.5" / 49.5 cm	16.75" / 42.5 cm 18.5" / 47 cm
11	18.5" / 47 cm	21.25" / 54 cm	18.5" / 47 cm 20.25" / 51 cm
12	20.25" / 51 cm	23" / 58 cm	20.25" / 51 cm 21.75" / 55.5 cm
13	21.75" / 55.5 cm	24.5" / 62.5 cm	21.75" / 55.5 cm 23.5" / 60 cm
14	23.5" / 60 cm	26.25" / 67 cm	23.5" / 60 cm 25.25" / 64 cm

Note: Cell to cell and edge to edge dimensions are rounded to the nearest .5 cm. Please check product list to confirm that a size is available. Sizes vary per model.

Sizing Exceptions - The above sizes are compatible with all ROHO seat cushions **except AirLITE®** cushions. The number of cells is compatible with the model numbers listed next to each product. The wheelchair seat format should be used to determine the proper number of cells required to suit your seat. For the AirLITE® cushions, the model number indicates the dimensions of the wheelchair seat in inches, width X length.

Dimensions for ROHO® Products

Read the measurements in this guide and in the product documentation at www.permobil.com.

Cushion Height – The height of the cushion without load and without possible edging or seat shell. The point of departure is a normally inflated cushion. These measurements may also be found in the product descriptions and on product labels.

Cushion Width – Cushion width measured from edge to edge without load. These measurements may also be found in the product descriptions and on product labels.

Cushion Depth – Cushion depth measured from edge to edge without load. These measurements may also be found in the product descriptions and on product labels.

Seat Width – The appropriate seat width for using the cushion. See also “appropriate width” in the list of products.

Seat Depth – The appropriate seat width for using the cushion. See also “appropriate depth” in the list of products.

Effective height of DRY FLOATATION® / AIR FLOATATION™ – Spacing between the lower portion of the body and the top of the seat cushion or mattress. The effective height of DRY FLOATATION® (height for AIR FLOATATION products with AIR FLOATATION™ technology) makes assumptions regarding the depth to which the body sinks into the cushion. The deeper, the greater the contact surface and the lower the pressure per cm² of skin.

Notes

NOTE 1: Ventilation/drainage openings through base of cushion available.

NOTE 2: All cushions include a cover, inflation pump, repair kit, and operating instructions, except where noted by a *.

NOTE 3: All measurements for cushions are approximate from edge to edge.

NOTE 4: Custom pricing is for cushions up to 160 cells. Cushions over 160 cells require a quote.

NOTE 5: Custom items are non-refundable and non-exchangeable.

Terms and Policies

1. Return Policy: All returns require prior authorization and are subject to a restocking fee.
2. All custom items are non-refundable and non-exchangeable.
3. All cushion and mattress include inflation pump, rubber patch repair kit, and operating instructions. Cushion also include cover unless noted by *.

Permobil reserves the right to make changes to products and specifications without notice.
